AGAINST LEUKOCYTE ADHESION

MOLECULE VLA-4

<u>AMENDMENT</u>

APR 1 0 1995

Commissioner of Patents and Trademarks Washington, D.C. 20231

Sir:

In response to the Office Action mailed September 22, 1994 (Paper No. 9), please amend this application as follows.

IN THE CLAIMS:

Please cancel claims 27-28 and 30 without prejudice. Please amend the claims as follows:

- 1. (Amended) A humanized immunoglobulin comprising a humanized heavy chain and a humanized light chain:
- (1) the humanized light chain comprising three complementarity determining regions (CDR1, CDR2 and CDR3) having amino acid sequences from the corresponding complementarity determining regions of [a] the mouse 21-6 immunoglobulin light chain variable domain designated SEQ. ID. No. 2, and a variable region framework from a human kappa light chain variable region framework sequence except in at least one position selected from a first group consisting of L45, L49, L58 and L69, wherein the amino acid position is occupied by the same amino acid present in the equivalent position of the mouse 21-6 immunoglobulin light chain variable region framework; and
